Infill Tour

- We are asking the project's Advisory Committee to complete an infill tour and would like to extend the opportunity to you!
- If you would like to conduct a tour of infill developments around the city and share your thoughts on what has been done well and what could use improvement, then please complete a self-guided tour attached to this email.
- Also attached is a document featuring probing questions to get you thinking about how the design guidelines can influence infill development as well as OCP policy context for the area's in the tour.
- When you have completed the tour feel free to answer this ThoughtExchange and see what others also thought. Thoughts you agree with can be upvoted.
